INTERNATIONAL COOPERATION EXCHANGE

ENVIRONMENTAL TECHNOLOGY, WASTE
MANAGEMENT AND RENEWABLE ENERGIES

Ecomondo
Rimini/Italien | 8th - 9th November 2007

THE GLOBAL CLUSTER PROJECT

A network of reliable business partners is the key factor for the success of your company in an enlarged Europe.

Via our European project Global Cluster, in which 20 partners from 13 different countries are participating, our aim is to provide you with active support in the cultivation of new business contacts:

- At three cooperation exchanges we will help you to meet company representatives from selected sectors.
- Workshops are being organised to give you comprehensive instructions in international business initiation and tips on concrete cooperation activities.
- We broker contacts to clusters on your behalf and provide information on membership.

THE COOPERATION EXCHANGE AT THE ECOMONDO TRADE FAIR

From 8th – 9th November 2007 the first Global Cluster Cooperation Exchange is being held at the Ecomondo trade fair in Rimini/Italy. Take this opportunity of meeting more than 100 companies from the environmental technology, waste management and renewable energy sectors.

Irrespective of whether you seek distribution partners or suppliers, wish to enhance the range of services you offer or want to swap technologies – the cooperation exchange is ideal for discussing your ideas directly with potential partners.

OUR SERVICE PACKAGE

1. Two days of direct negotiations with companies from 13 different countries – Germany, France, Belgium, Italy, UK, Finland, Spain, Poland, Czech Republik, Slovakia, Slovenia, Hungary and Estonia
2. Publication of your corporate profile in the catalogue and on the homepage www.globalcluster.eu
3. Transmission of the event catalogue in pdf format prior to the cooperation exchange taking place
4. Compilation of your individual appointments schedule with 30-minute meetings based on your specific choice of companies
5. Information on clusters in the participating regions during the cooperation exchange
6. Free interpreter service if required
7. Food and drinks during the event
8. Optimum service and support – before and during the event and, if needed, afterwards too

SECTORS COVERED BY THE COOPERATION EXCHANGE

WASTE MANAGEMENT

Refuse treatment, waste disposal, recycling

RENEWABLE ENERGIES

Solar systems, energy economies, wind energy, hydropower, biomass, biogas
